Advice and support

We serve LGBTI+ people and people in their immediate environment, in addition to individuals who have perpetrated discrimination, professionals and the population in general.

Group meetings

We have a group for young people and one for families where participants share information and experiences.

Change of name on official documents

We'll help you change your name on your health or library card, and we can also advise and inform you about other procedures (national ID card, foreigner's ID card, etc.).

If you experience discrimination, we'll provide you with emotional and social support and tell you how to go about reporting it, should you wish to do so.
